

Protocall's Got Technology Talent!

THE PROTOCOL GROUP™
Technology

Technology Services

We are hiring managers' #1 choice for quality technology candidates in the following disciplines:

- Application & Web Services
- Systems Administration & Networking
- Software Testing & Development
- Technical Project Management
- Infrastructure & Data Solutions
- Database Development & Administration
- Systems Engineering

History & Service Commitment

As a leader in employment staffing services since 1965, Protocall is recognized as a performance-driven business partner offering innovative staffing alternatives. Built on a foundation of customer longevity and satisfaction, we invite you to experience our customer commitment placing top talent in the industry.

Scope of Services

Protocall Technology delivers talent across the entire spectrum of staffing and project requirements. We can deliver a single resource or an entire team; project outsourcing; vendor management solutions, and much more customized to your specific needs.

Technology Recruiting

In our technologically advanced world, hiring the right technology professionals is a critical element to success. More than ever, companies are depending on us to connect them to the very best people. Our technology recruiting team is responsible for the full life cycle of recruiting and placements of contract, contract-to-hire, and full-time permanent positions.

Ensuring quality candidates through power testing

PROTOCOLL's Power Testing utilizes the Kenexa Prove It! Skills Assessment package to evaluate an applicant's competency. In addition to assessing a variety of different skill sets, **PROTOCOLL** provides the opportunity to enhance a candidate's skills through our software tutorial programs. To view the complete list of assessments that are included in the technology testing program, you can visit: www.proveit2.com/protocolstaffing click assessments available and click Tech Test titles.

Kenexa Prove It!

To ensure customer satisfaction, candidates for hire must pass an in-depth screening program including satisfactory work references, background checks, and proof of training.
